For Immediate Release

**WEST STAR AVIATION OFFERING “IN-HOUSE” AIRCRAFT
WINDOW REPAIR**

Grand Junction, CO, February 11, 2011 – West Star Aviation, Inc. is pleased to announce they now offer complete window repair from their “in-house” team of experts. Other maintenance organizations use outside vendors to repair windows--not West Star. Instead, they rely on their “in-house” team of professionals with over 38 years of cumulative experience in the repair process.

This “in-house” window repair is offered for most corporate aircraft including: Falcon, Hawker, Citation, Challenger, Learjet, Conquest, King Air, Embraer, and Westwind.

“We decided to hire some of the most experienced FAA Certified Window Repairmen in the world to best serve our customers,” says Dave Krogman, General Manager at GJT, West Star Aviation. “Having them on-site saves our customers thousands of dollars in travel costs versus bringing in outside vendors, and because they are on-site, we can also assure a quick response to unexpected issues that arise during a routine aircraft inspection.”

It is estimated repairing damaged windows, rather than replacement, typically results in a 90% savings. West Star Aviation’s window repair team now offers free window evaluations at all locations to determine if a repair or replacement is right for you.

(more)

In addition to windshield replacement, West Star offers Surface Seal Treatment for applicable windshields, a rain repellent, which beads water off the windshield without wipers.

To request additional information or schedule services contact Jack Brown, Aircraft Window Repair Program Team leader (GJT), at (970) 243-7500 or 800-255-4193.

West Star Aviation, Inc. specializes in airframe repair and maintenance, engine repair and maintenance, major modifications, avionics installation and repair, interior refurbishment, paint, parts, surplus avionics sales, and accessory services. In addition to its facilities in East Alton, IL; Grand Junction, CO; Columbia, SC; and Dallas, TX, West Star Aviation runs the maintenance operations at Aspen-Pitkin County Airport in Aspen, CO. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation, Inc. is an industry leader in technical experience and expertise and provides world-class customer services in all of the organization's divisions.
