**WEST STAR AVIATION NOW OFFERING NEW PROGRAM FOR
CHALLENGER 601 LANDING GEAR.**

Grand Junction, CO, October 10, 2011- West Star Aviation has acquired a Complete Ship Set of Challenger 601 Landing Gear to reduce downtime and accommodate operator specific schedules. The landing gear will be available on a loaner/rental/exchange basis through West Star's Grand Junction, CO (GJT) Accessory Shop.

The new program gives an operator a variety of options to choose from when they use West Star Aviation for their landing gear services. "Exchange" is offered to operators who prefer to have quick, seamless turn-around with minimum downtime. "Rental" landing gear will be offered for those operators who prefer to send their landing gear to GJT. Rental landing gear will be offered at a fixed rate for the duration of the operator's landing gear restoration. To further reduce downtime and restoration costs, WSA will continuously support extended lead time repairs with Loaner/Rental options to accommodate specific operator schedules.

"This new program will also provide a solution for operators who would like to have their aircrafts painted during a gear restoration," says Steve Goede, Accessories Program Manager, West Star Aviation. "The complete ship set will allow for simultaneous aircraft painting and restoration to cut downtime in half."

West Star Aviation, Inc. specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its facilities in East Alton, IL; Grand Junction, CO; Columbia, SC; and Dallas, TX, West Star Aviation runs the maintenance operations at Aspen-Pitkin County Airport in Aspen, CO and at Spirit of St. Louis Airport in Chesterfield, MO. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation, Inc. is an industry leader in technical experience and expertise while providing world-class customer services in all the organization's divisions.
