**WEST STAR AVIATION ACQUIRES MESSIER BUGATTI DOWTY
OVERHAUL MANUALS**

Grand Junction, CO, August 3, 2012- West Star Aviation has acquired the recently released Messier Bugatti Dowty Overhaul Manuals and Technical Data for Challenger 604-192 Month Gear Restorations. This “stand-alone” Overhaul Manual is required to perform any Challenger 604 Gear Restorations/Repairs, and encompasses OEM approved repairs, engineering support, recommended service bulletins (SB’s) and airworthiness directives (AD’S), as well as OEM mandatory requirements.

“West Star has made a substantial investment in our Challenger program in procuring these manuals,” said Steve Goede, Accessories Program Manager, West Star Aviation. “No technician can perform a Challenger 604-192 Month Gear Restoration without this manual, so it was an easy choice for us to get these manuals as soon as they were available, to assure our current and potential Challenger customers that West Star is the best choice for all their Challenger 604 restorations and repairs.”

In addition to acquiring one of the initial manuals, West Star offers their Challenger customers the convenience of a variety of services at one location, including airframe and engine maintenance, avionics, parts, aircraft sales, management, and FBO services. As a member of GE CF-34 engine service center network, West Star holds an FAA Parts manufacturing approval (PMA) rating, and offers 24/7 on-call and drop-in technical support for Challenger customers.

West Star Aviation, Inc. specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its facilities in East Alton, IL; Grand Junction, CO; Columbia, SC; and Dallas, TX, West Star Aviation runs the maintenance operations at Aspen-Pitkin County Airport in Aspen, CO and at Spirit of St. Louis Airport in Chesterfield, MO. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation, Inc. is an industry leader in technical experience and expertise while providing world-class customer services in all the organization’s divisions.
