**WEST STAR AVIATION NOW OFFERING G-200 LAVATORY MODIFICATION**

**East Alton, IL, April 23, 2013-** West Star Aviation, Inc. announced they now offer the G-200 Lavatory Toilet Modification for G-200 aircraft with the 3-gallon lavatory tank. This modification replaces the existing tank with a new Zodiac 8-gallon tank. This modification can be performed at West Star's East Alton (ALN) and Grand Junction (GJT) locations.

During this modification, West Star will install a larger capacity toilet and waste water holding tank, allowing the system to hold five additional gallons. The existing toilet and enclosure will be removed and a new lavatory toilet seat and enclosure will be fabricated and installed.

The new lavatory toilet seat will incorporate a new hinged padded lid, which will be covered in customer selected leather, and the new enclosure will be covered in a customer approved veneer. The new system will be installed via the FAA Field Approval Process.

To learn more about the installation, or to get a custom quote, contact Julie Timmons at 618.610.6945 for our East Alton, IL facility or Joan Pompa at 636.575.0683 for our Grand Junction, CO facility.

West Star Aviation, Inc. specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its facilities in East Alton, IL; Grand Junction, CO; Columbia, SC; and Dallas, TX, West Star Aviation runs the maintenance operations at Aspen-Pitkin County Airport in Aspen, CO and at Spirit of St. Louis Airport in Chesterfield, MO. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation, Inc. is an industry leader in technical experience and expertise while providing world-class customer service in all the organization's divisions.
