FOR RELEASE ON NOVEMBER 1, 2016

West Star Aviation Granted Approval on Falcon 2000 Baggage Modification STC

East Alton, IL, November 1, 2016 - West Star Aviation is proud to announce they have been granted approval on their Falcon 2000 baggage Modification STC.

This modification will allow West Star to create usable, baggage space in the Aft unpressurized area. The forward servicing compartment (FSC) panel enclosure will feature a 21.75 sq. ft. footprint, and 73.5 cu.ft. of usable baggage space. The installation weight of this modification is 115 pounds and can accommodate 185-275 pounds while still allowing access to all common service and maintenance items with no additional fire detection or suspension needed.

"This installation provides FAA-approved stowage provisions as it converts existing space into usable and much needed baggage and storage space. It will provide structural restraint for security while still retaining existing aircraft equipment stowage provisions including tow bar, ladder, engine inlet cover tool and the fly away kit," said Rodger Renaud, President and Chief Operating Officer, West Star Aviation.

This modification is available to over 500 Falcon 2000 aircraft models and will have a minimal impact on weight and c.g. balance.

Voted #1 Preferred MRO in the 2014, 2015 and 2016 *Professional Pilot* magazine annual "Preferences Regarding Aviation Services and Equipment" (PRASE) Survey for three consecutive years, West Star Aviation specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its facilities in East Alton, IL; Grand Junction, CO; and Chattanooga, TN, West Star Aviation runs maintenance operations at Aspen-Pitkin County Airport in Aspen, CO; Chicago Executive Airport in Chicago, IL and Centennial Airport in Denver, CO. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation is an industry leader in technical experience and expertise while providing world-class customer services in all the organization's divisions.
